

Perico,

Mr. Boaz Long

American Minister

Havana.

As a cuban citizen, that is something more than a member of either conservative or liberal party, as a man that have lived in your great republic, the cradle of democracy, and learnt in their schools the love to justice and true liberty, I protest against this fact: that a crowd with police-men and soldiers in it received to-day, in this town, the presidential candidate of a party, called the National League, with Africa's forest songs and fire arms discharges as if it were a wild animal hunting.

Dr. Muñoz.
